

The registration for domain name under in.th will be started at 9:00 am (Bangkok time) on 19 March 1999 under the following concerns:

1. Document needed
 - a. For an organization - the formal certificate from the government of Thailand is required.
 - b. For an individual - the identification card, driving license or work permission is required.
2. An organization or any individual can apply for domain names based on a "first-come, first-served" basis.
3. The requesting domain name must be a unique name.
4. The administrative and billing contact's addresses must be in Thailand.
5. Prospective domain name holders are responsible for ensuring that at least two name servers are configured and operable prior to submitting their application, otherwise registration process cannot proceed.
6. The administrative and technical contact confirmations have to be received within one month otherwise the application will be cancelled.
7. The requesting domain name must follow the name convention for the juristic person of the department of commercial registration, ministry of commerce. For example, name of provinces, offensive words and inappropriate words cannot be requested. THNIC reserves the right to make the final decision.
8. More than one domain name can be requested.
9. For the organization which has no right to apply for the domain under .th but has the right on the name can request to hold the domain name from other requests.

To register domain name under .in.th, there could be separated to be 2 cases:

1. Register domain name on behalf of organization business license document (such as Por-por-20, Tor-kor-0401 or other documents which are issued by Thai Government) and payment evidence (or pay-in slip)
2. Register domain name on behalf of individual (Aged 15 years or more) administrative contact's ID card, driving license or Thailand work permit license and payment evidence (or pay-in slip)
